

Commercialization services for Start-Ups or Spin-Outs

Realizing the need for business related experience in the early stages of new businesses, Technology Resource has developed a program to work with young companies and provide services at an affordable rate. The services are designed to bring the company to the attention of potential partners/investors at a rapid pace. Our 30 years of experience and decades of service to many Universities and start-up companies have enabled us to forge relationships with many serial entrepreneurs, industry business leaders and investment networks.

What we provide:

1. Full market evaluation of the proposed project
2. Full financial evaluation of the proposed project
3. Independent Assessment of market potential
4. Identify and qualify commercialization partners
5. Identify and qualify funding sources

Our longstanding service to Universities and Industry with our technology Valuation and Assessments have given us the experience and breadth of knowledge to offer this service.
